QUICK SETUP GUIDE

SOFTRON
record stream play

What's in the box ?

- A Deltacast **DELTA-12G-e-h 8c** card
- 1 x **USB dongle** (Shipped empty, to add your licenses)
- 11 x BNC Female to **Micro BNC** (HD-BNC) Cable (15 cm)

Place the M|8XL in your Mac Pro or expansion chassis

The **M|8XL**, can either be placed in a PCI slot of your Mac, or in a Thunderbolt expansion chassis. For best placement inside a Mac Pro, recommendations can be found here: https://softron.zendesk.com/hc/en-us/articles/360011037160
On your computer

- **Connect the USB dongle** (the small green light should light up)
- **Upgrade the dongle** to add the licenses to it. Dongles are shipped "empty", without any license on it, and should be upgraded to add your licenses. Scan the QR code on the left for the procedure or go to https://bit.ly/3yMW657.
- **Download MovieRecorder** (https://softron.tv/support/downloads)
- Download and install the **drivers for the Deltacast card from our website** - not from Deltacast's website (link available on the downloads page of our website - requires to restart your computer)

Connection Diagram

The **M|8XL** has eleven Micro BNC (HD-BNC) connectors, with the following mapping.

- ⚪ LTC Input
- 🔵 Ref. Input
- 🟢 Ref. Output
- ⚫ 12G Input / Output

Start MovieRecorder

You can find additional information on how to use MovieRecorder on our website https://softron.tv. On the downloads page of each product, you can find the "Resources" section. Also the Knowledge Base of our support desk can provide a lot of useful information: https://softron.zendesk.com/

Add options or licenses to the dongle

If you need to add options to MovieRecorder you can order them and we'll send you by email an upgrader for your dongle. Dongles can hold up to 20 licenses, so if you order an additional license, we can also send an upgrader for your dongle.
